we are meeting online

Welcome to Workshop 2 of the OER Creator Workshop!

In Workshop 2 of our OER Creator Workshop series, we reflect on how our OER projects are progressing. Focus of this online meeting is to share our experiences in smaller groups and to have further input from experts on accessibility, licensing and attribution of OER material or media.

Aims of this workshop

- to reflect on the experience and progress of my individual or group project
- to meet with experts on OER and accessibility, licensing and media-related questions
- a space for peer-feedback and reflection of my educational practice within the group
- to network and collaborate with others

About the OER Creator Workshop

This workshop is part of our OER Creator Workshop series that runs from October till December 2022. We are passionate about Open Educational Resources (OER). For 8 weeks, we create and share learning resources under an open licence, so others can retain, reuse, revise, remix and redistribute them.

Workshop timeline

In **Week 1, 5 and 8** we meet up, collaborate and share. During the other weeks, you will be working on your chosen OER project either individually or collaboratively with others. Of course, we will keep in touch and connect through different channels during this time and support you on your journey.

About the project

Our OER Creator Workshop is part of the swissuniversities P-8 project and funded under the umbrella 'Renforcement des digital skills dans l'enseignement', which is directed towards strengthening digital skills in teaching. Our aim is to form an active community of educators around the concept of creating and sharing OER.
